

SLAP AT SCHIEREN.

Assembly Re-Passes the Bill Changing Aldermanic Districts.

He Had Returned It Without His Approval.

Worth-Platt Gang Determined to Force the Measure.

(Special to The World.)

ALBANY, April 10.—The Assembly today emphasized its disregard for the wishes of Mayor Schieren by passing for the second time the bill changing the limit of the Aldermanic Districts in Brooklyn, and providing for the election of four Aldermen from each Senatorial District.

The bill was passed two or three weeks ago by both houses and sent to the Mayor. The latter disapproved of it, but it reached the Governor indorsed "accepted by the Mayor." When he discovered the mistake the Governor withdrew his approval.

The bill was passed again, however, which was back of the bill, introduced it over again, and had it passed by the Assembly to-day by a vote of 87 to 10.

After it is passed again by the Senate it will be sent to the Mayor, who may hold it for fifteen days or veto it at once. It will then go to the Governor.

The action of the Assembly, in view of the almost certain disapproval by Mayor Schieren, is problematical. The Brooklyn machine men say that the Governor will sign the bill without regard to the Mayor's opposition.

Senator Sullivan's bill, to authorize the Board of Claims to hear and determine the claim of John Roberts for false imprisonment, was a special order on third reading in the Assembly to-day.

Mr. Armstrong objected to the phraseology of the bill, but made no motion relative thereto, and the bill was passed, receiving six negative votes. Other bills passed were:

J. N. Stewart's—Creating a commission to inquire into the expediency of constructing a sewer and highway through New York and Westchester along the Bronx River.

Mr. Hamilton's—Empowering the Comptroller of New York to refund assessments for opening Twelfth avenue.

Mr. Audette's—Prohibiting telegraph operators less than eighteen years of age from being employed in telegraphing as to the movements of railroad trains.

Mr. La Prade's—Authorizing the distribution of prize offered for the best plan for the erection of a new City Hall in New York.

Mr. Fawcett's—Closing barber shops at 1 o'clock P. M. Sunday, after Sept. 1, 1903.

Mr. Niles's—Authorizing the Board of Claims to audit and determine claims for military uniforms and repairs thereto for the National Guard.

Mr. Conklin's—Requiring the registration, with full personal description, of inmates of licensed lodging-houses in cities of the first class.

Mr. Macdonald's—Providing that the East River Gaslight Company, of Long Island City, shall not share more for supplying in that city than in others.

WON'T TAKE BYRNES'S ADVICE

Lexow Says the Police Bills Will Remain as They Are.

(Special to The Evening World.)

ALBANY, April 10.—The Police Bills, while apparently grateful to the gratuitous advice offered by him as to the sort of police reorganization bill they should pass, have decided that they will not accept his suggestion.

Senator Lexow said to-day in discussing with "The Evening World" reporter the future of his Police bills, now laid away on the shelf pending the reappearance of Senators Robertson and Wolfert, who are on the sick list.

"I do not think it would be advisable," said Lexow, "to delay the consideration and passage of the police bills, as they stand, and as they have been proved by the Republican Senators, by lacking on any more amendments."

"The bills as they now stand are about as satisfactory in a general sense as they can be made, and the Republican Senators have decided that it would be inadvisable to further mutilate them."

The Assembly can amend the bills if it desires, but I think they have passed the Senate in their present shape, as soon as the absent Senators return.

Some of the Republican Senators, including Reynolds and Stapleton, will make an effort to-day or to-morrow to caucus their colleagues on the Police Magistrates bill, the Real Estate Sales bill and the Golf bill.

The move, however, is being resisted by the most ardent Platt men, who declare they will not support the bill until Reynolds and Stapleton keep their caucus pledges to support the Lexow Police bills.

WANTS A FIFTH JUDGE.

Senator McMahon Introduces a Bill Affecting General Sessions.

(Special to The Evening World.)

ALBANY, April 10.—Senator McMahon to-day introduced a bill creating a fifth Judge of the Court of General Sessions.

Coming just as it did right upon the heels of the appointment of a Republican to succeed Martine, it was suspected that it might be another Tammany scheme to retain control of the Court.

Senator McMahon admitted that District-Attorney Fellows wished the bill passed. He denied, however, that the bill was introduced for the purpose of claiming that the bill was drawn long before the controversy with him broke out.

The new Judge is to be elected in November next and is to serve fourteen years.

Fish and Game Commissions to Be Consolidated.

(Special to The Evening World.)

ALBANY, April 10.—The Assembly passed the Donaldson bill sweeping out of existence the State Fish and Game and Forestry Commissions, and creating a new Board to be known as the Fish, Game and Forestry Commission. It now goes to the Governor and will probably become a law within a few days.

Mr. Davis, of Wayne, the right power of Lewis, of Saxton, is elected President of the new board, with a salary of \$5,000 per year. Four members are to receive \$1,000 annually.

THE REASONS WHY

Scott's Emulsion of Cod-liver Oil and Hypophosphites is so useful in all wasting diseases, such as Consumption, Anæmia, Scrofula, Rheumatism, Bronchitis, and Marasmus and Rickets in children, is because it furnishes to the depleted blood the fattening and enriching properties of the oil, and to the bones and nervous system the phosphorescent and vitalizing properties of the Hypophosphites, which together nourish the body, arrest the progress of the disease, and commence a process of repair that finally restores health and vigor.

CAPT. MAHAN'S TASK.

Will Be Asked to Write the Naval Battles of the Civil War.

(Special to The Evening World.)

WASHINGTON, April 10.—Capt. Mahan, of the Chicago, is expected in Washington to-day.

He has two months' leave of absence, and will avail himself of the opportunity to go to England on business connected with his forthcoming book, a life of Nelson and a naval history of the war of 1812.

Secretary Herbert intends to have Capt. Mahan spend as much of the next two years as possible in Washington for a specific purpose. This is the writing of a naval history of the civil war.

Undoubtedly Capt. Mahan will cordially assent to this earnest desire of the Secretary.

"The naval history of the civil war," said Secretary Herbert to "The Evening World" correspondent recently, "is yet to be written. The history of the movement of the land forces has been discussed in great detail, and any physician knows that danger—even greater than disease itself—lies in the introduction into the stomach of a miscellaneous lot of drugs applied without professional advice."

There are hundreds of these "spring medicines" in the market, but they are taboed by reputable physicians, and their sale is now being made a criminal offense in some States, as they contain arsenic, chloral or opium, or other deadly ingredients.

Thousands of people are buying patent medicines at random, in a reckless attempt to give to the system the medicine which they require.

In view of the fact that a pure, professionally prepared and administered spring tonic is a necessity to every one at this season of the year, Doctors Copeland and Gardner have concluded to prepare and give away a patent beginning treatment before May 1 a full course bottle of Doctor Copeland's Special Prescription for the Liver, Kidneys and Blood, in addition to their regular treatment. This bottle is given to themselves or any member of their family in need of a spring tonic.

This preparation is especially requisite for those who have suffered from the grip, influenza, or other winter malady, to aid the general external treatment to get the poison out of the blood. It gives an accumulated poison from the blood, improves the circulation, enriches the blood and strengthens the liver and kidneys, as well as all the other organs of the body. At this time of the year no medicine could be more beneficial or more exactly in the line of their regular treatment. The offer is as follows:

All persons beginning treatment before May 1 will receive a full course bottle of Doctor Copeland's Special Prescription for the Liver, Kidneys and Blood, in addition to their treatment. This bottle is given to themselves or any member of their family in need of a spring tonic.

The preparation is especially requisite for those who have suffered from the grip, influenza, or other winter malady, to aid the general external treatment to get the poison out of the blood. SPRING MEDICINE FREE!

DR. COPELAND'S SPECIAL PRESCRIPTION GIVEN AWAY.

His Famous Liver, Kidney and Blood Cure Positively Free to All Old and New Patients During April—An Unparalleled Offer and Dr. Copeland's Reasons for Making It.

Every person needs a good spring medicine at this season of the year to prepare the system for the severe change from winter to spring.

The newspapers are constantly filled with advertisements of patent medicines that have various claims for curing various diseases. Always the same medicine. In one season they are advertised to cure Rheumatism; in another, Catarrh; in another, Bright's Disease or Nervous Prostration. Just now all of them are being advertised as "spring medicines," and are alleged to be the great cures for "the blood."

Any one with half an eye can see the absurdity of these claims for medicines made after one formula in great tanks or vats, and any physician knows that danger—even greater than disease itself—lies in the introduction into the stomach of a miscellaneous lot of drugs applied without professional advice.

There are hundreds of these "spring medicines" in the market, but they are taboed by reputable physicians, and their sale is now being made a criminal offense in some States, as they contain arsenic, chloral or opium, or other deadly ingredients.

Thousands of people are buying patent medicines at random, in a reckless attempt to give to the system the medicine which they require.

In view of the fact that a pure, professionally prepared and administered spring tonic is a necessity to every one at this season of the year, Doctors Copeland and Gardner have concluded to prepare and give away a patent beginning treatment before May 1 a full course bottle of Doctor Copeland's Special Prescription for the Liver, Kidneys and Blood, in addition to their regular treatment.
